CORRECTIONS IMPACT STATEMENT

SESSION: 21RS BILL # SB 60 Introduced BR # 1130 DOC ID #: xxxx

BILL SPONSOR(S): Sen. S. Meredith, J. Adams AMENDMENT SPONSOR(S): . .

TITLE: AN ACT relating to the abolition of the death penalty.

ABACNIDBACNIT

SUMMARY OF LEGISLATION: Create a new section of KRS Chapter 532 to abolish the death penalty and replace it with life imprisonment without parole for inmates presently sentenced to death; amend KRS 532.030, relating to authorized dispositions for felony offenses, to remove the death penalty; amend KRS 640.040, relating to penalties for juveniles convicted of felony offenses, to prohibit life imprisonment without benefit of parole for a capital offense; amend KRS 422.285, 532.050, 532.100, and 533.010 to conform; repeal various statutes relating to imposition of the death penalty.

AMENDMENT:	
This ⊠ bill □ amendment □ committee substitute is expected to: ☑ Have the following Corrections impact □ Have no Corrections impact	
☐ Increases penalty for existing crime(s)	□ Decreases penalty for existing crime(s)
☐ Increases incarceration	☐ Decreases incarceration
☐Reduces inmate/offender services	☐Increases inmate/offender services
☐ Increases staff time or positions	☐ Reduces staff time or positions
\square Changes elements of offense for existing crime(s	3)
Otherwise impacts incarceration (Explain) .	
and most Class D felons are housed in one of seventy	d on an average daily prison rate of \$80.24. Community Custody Class C r-seven (77) full service or regional jails for up to five (5) years. Department a jail is \$37.35 per day, which includes \$31.34 per diem, medical costs, & reatment not included).*
Projected Impact: ☐ NONE ☐ MINIMAL to N	MODERATE (< \$1 million) ☐ SIGNIFICANT (> \$1 million)

The proposed legislation would abolish capital punishment. There are currently twenty-six (26) inmates on death row in Kentucky. Abolishing the death penalty would cause these inmates to serve life without parole.

The legislation also prohibits life imprisonment without the benefit of parole for youthful offenders convicted of a capital offense. Current statute prohibits the death penalty for youthful offenders under the age of sixteen (16).

Inmates currently under the death penalty have served an average of twenty-eight and a half (28.5) years from the start of their incarceration and inmates who have been executed spent an average of twelve (12) years from incarceration until death. Male inmates with a sentence of death are housed at the Kentucky State Penitentiary, which has an average annual cost to incarcerate of \$36,948.41 per inmate. Female inmates with a sentence of death are housed at the Kentucky Correctional Institute for Women at an annual cost of \$32,455.25.

For the 727 inmates currently serving a sentence of life, the current average length of time served is 20.56 years (reflective of when the statute was changed). For inmates who have died while incarcerated serving on a life sentence, the average time served prior to death was 26 years.

For the 122 inmates currently serving a sentence of life without parole, the current average length of time served is 11.88 years (reflective of when the statute was changed). For inmates who have died while incarcerated serving on life without the possibility of parole, the average time served prior to death was 19.3 years.

The average annual cost to incarcerate offenders with a life sentence is \$29,287.75 per year.

Under this legislation, there would no longer be a need for a dedicated unit and officer for death row. In addition, the current structure which accommodates executions at Kentucky State Penitentiary could be repurposed. Other costs associated with executions would be eliminated. These include lethal injection drugs, handling of the body (ambulance, coroner, crematorium, etc.), the execution team (training and overtime pay), and added security for the public, press, etc.

Given that the state has conducted only three executions since capital punishment was reinstated in the United States in 1976, holding these offenders for life would not significantly impact incarceration. **LOCAL IMPACT:** Local governments are responsible for the cost of incarcerating individuals charged with Class A or B misdemeanors and felony defendants until disposition of the case. The estimated impact will be based on the \$37.35 cost to incarcerate while \$31.34 is the per diem and medical that DOC pays jails to house felony offenders. Since the cost to incarcerate is an estimated average cost of housing an inmate, this may not be the actual housing cost for the jail.* Projected Impact: ☑ NONE ☐ MINIMAL to MODERATE (< \$1 million) ☐ SIGNIFICANT (> \$1 million) **Projected Corrections Impact from Amendments:** *All projections are based on the daily rate x 365 days x number of years. The cost to incarcerate as calculated by the Department is shown here as rounded to the hundredths. Offenders may have multiple offenses or be incarcerated on other charges unless otherwise noted. Unless otherwise noted, numbers will include inchoate offenses at the underlying offense level. The following offices contributed to this Corrections Impact Statement: ☑ Dept. of Corrections ☐ Dept. of Kentucky State Police ☐ Administrative Office of the Courts ☐ Parole Board ☐ Other NOTE: Consideration should be given to the cumulative impact of all bills that increase the felon population, lengthens the term or incarceration, or impose new obligations on state or local governments. **APPROVED BY:**

Date

of Staff, Kentucky Department of Corrections

Costs for the use of law enforcement from local and state governments would be eliminated as well as costs the state

bears for legal appeals available to death row inmates.
